Patient on Table

"Patient on table" is an alarming statement to hear. Yet it calls for a sense of urgency from everyone at CitySprint. At 12:35pm, Community Tissue in Fort Worth, Texas called and needed a STATdelivery. They had a patient on the surgery table in Garland, Texas that needed additional tissue. CitySprint's Customer Service Rep, Charlotte Turton quickly moved into action, marked the delivery "Quality" and informed dispatch. She also informed Community Tissue that it was a 56 mile trip to the hospital in Garland yet that we would do everything we could to ensure the delivery made it as expeditiously as possible.

CitySprint dispatched driver, Alex Serrano to Community Tissue. He arrived within minutes to Fort Worth then managed to deliver to the Garland hospital in less than 90 minutes. A big thanks to Alex for his quick response and focus and thanks to Charlotte for following up and making sure we gave it our all!

Find Passion in What You Do

By Josh Hinds

Find something you feel passionately about - Ok, I'll readily admit that on the surface this seems like a no-brainer. Yet it never ceases to amaze me by how many people I talk with that feel as though they're just going through the motions with regards to the events in their lives (both business and personal).

My Friend, you may be at a point where you personally feel as though things are a little stagnant. I can sympathize with you. I know in the past I have certainly felt this way myself. Getting up each morning going to a job that I didn't particularly enjoy. Doing things that I didn't really find all that exhilarating.
